

Donation of computers and other IT equipment for the residents of Stajkovci village

Silk Road Bank AD Skopje as part of its social responsibility program donated additional humanitarian aid for the residents of Stajkovci village, who were badly affected by the devastating floods in August this year.

On this occasion, the Bank in cooperation with the IT Forum IT.mk, donated 60 computers Dell Optiplex, as well as other IT equipment.

We truly hope this donation will help the flood hit affected families enabling them to return back to their honorable everyday life.
